sparkflows.io

Next Gen Self-Service Machine Learning & Big Data Analytics

Why Sparkflows?

|					
Self-Service Machine Learning	250+ Processors to get started	Scale to Petabytes of Data	Multiple High Performance Connectors	Enterprise Grade Security	10x Quicker Analytics & Applications

Accelerate Data Preparation, Feature Generation, Machine Learning, Data Analytics, NLP, OCR & Visualizations on Big Data 10-30X faster with Sparkflows. Sparkflows comes with an Intelligent Workflow Platform and 250+ Processors to easily perform Machine Learning with just a few clicks.
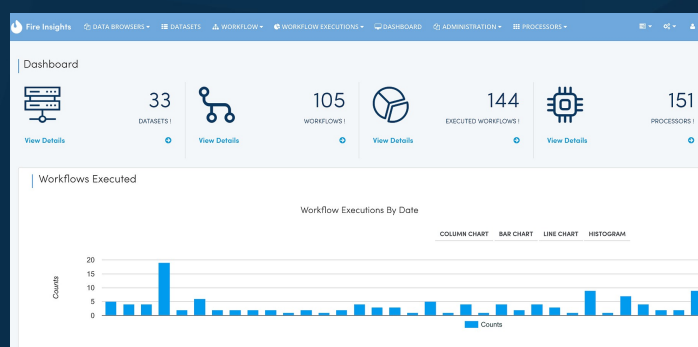

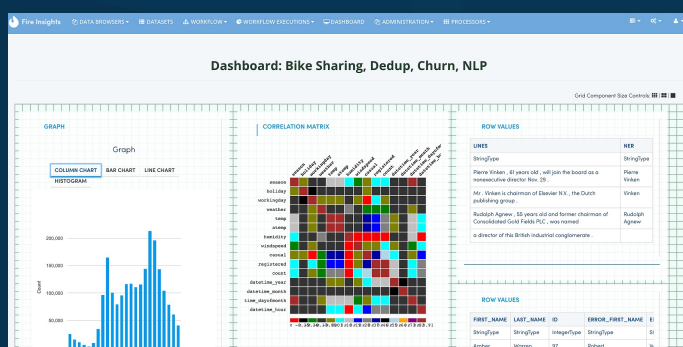

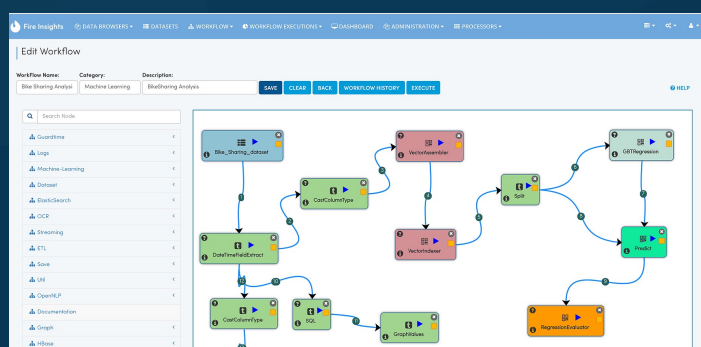

Data Prep & Analysis	Machine Learning	Streaming Analytics	Big Data Applications

Users Love Sparkflows

Data Analysts
Self-Service Data Preparation & Advanced Analytics

Data Scientists
Powerful Feature Generation & Machine Learning on Big Data

Data Engineers
Data Preparation, Data Quality, ETL & Reporting on Big Data
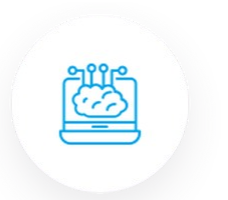

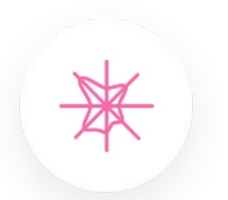

Get Started in Minutes

Define Dataset	Prepare & Enrich Data	Generate Features	Build ML Models	Perform Analytics	Build Applications

Sparkflows Enterprise Components

Intelligent Workflow Designer	Rich Charts & Dashboards	Integrations with REST API	Developer Interface	Scheduling & Automation	Multi-tenancy & User Management
